CHEST 2007

*The Seventy-third Annual
International Scientific Assembly
October 20-25, 2007
Chicago, Illinois*

Dear ACCP Colleague:

On behalf of the College and The Chest Foundation, we again congratulate you on becoming a Fellow. As you add the esteemed FCCP to your name, we thank you for taking the opportunity to participate in the annual Convocation and Awards Ceremony during CHEST 2006 in Salt Lake City. In that important ceremony you took several pledges, one of which was the No Tobacco Pledge. A tradition for new Fellows since 1979, you now join thousands of ACCP Fellows who have taken this pledge. No one knows better than we the harm of tobacco use and addiction.

As part of our anti-tobacco commitment to society and our patients we are pleased to provide the practical tools enclosed as our gift to you. The *Tobacco Cessation Tool Kit CD-ROM* will help you implement effective interventions with your patients. The *Make the Choice: Tobacco or Health: CD-ROM* speakers kit gives you multiple slide presentations to use in your community to educate women, teens, and children about the health effects of tobacco use.

We encourage you use these kits to fulfill your commitment and our common mission. As you embark on this effort we would like to capture your experiences, your successes and your challenges. Throughout the June 2006-2007 anniversary year, we will highlight various Fellows' projects. Let us know how you have used these tools by reporting back to us through The Foundations' website at: <http://www.chestfoundation.org/powerof10/Register>

We hope that these tools facilitate your participation in The Chest Foundation's "Imagine the Power of 10" program as we celebrate our 10th Anniversary. **The Power of 10** is meant to remind us that we can impact not only the lives of our individual patients, but can have an exponentially larger impact by conducting programs in your area to build awareness of the importance of tobacco education, and commit to educate 10 patients about smoking cessation.

Through your personal commitment and the use of these programs we can achieve "The Power of 10."

We look forward to hearing your stories.

Sincerely,

Mark J. Rosen, MD, FCCP
President
American College of Chest Physicians

Robert G. Johnson, MD, FCCP
President
The Chest Foundation

The American College of Chest Physicians

As a fellow of the American College of Chest Physicians, and a leader in the most important struggle faced by health-care professionals, the prevention and control of our major health problems of lung cancer and cardiovascular, and chronic pulmonary disease, I shall make a special personal effort to control tobacco use, and to eliminate this hazard from my office, clinic, and hospital. I shall ask all of my patients about their use of tobacco, and I shall assist the tobacco user in eliminating this deadly habit. I shall devote time to educating the public about the hazards of tobacco. I make this pledge to my patients and to society.
